5" | 13 cm embroidery hoop

Monstera Love

YOU WILL NEED:

1 x 5" Embroidery Hoop
Calico Fabric (medium weight, close weave)
Scissors
Needle (darning or embroidery needles work best)
Fabric pen to transfer the design

All the elements use less than the full 6 strands of thread so you will need to split your length of thread before beginning each element.

KEY:

Sst – Satin Stitch
Bst – Back Stitch
Sbs – Split Back Stitch
Fknots – French Knots

INSTRUCTIONS:

Begin with the Monstera Leaves using 1044 / 3 strands / Sst. We found it easier to start at the edge of the leaf, to the middle.
Next using 1044 and 3 strands, do a Sbs to create the stems.

The main colour of the plant pot is 00001 (white) and is created using horizontal Sst / 3 strands.
Next stitch the plant pot legs/frame. The legs are a vertical Sst / 3 strands, and the frame is an angled Sst / 3 strands (See the picture).

The soil is created using 358 / 3 strands / Fknots (twice around the needle). There is no need to count how many you have done – just stop when you're happy with how it looks.

Finally, outline the plant pot and frame (including legs) with 403 / Bst / 1 Strand.

WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-Tex standards. PH values are tested and all our colour dye lots adhere to Global fastness standards. However, it is important to follow our thread washing instructions. Particularly with dark colors, excess dye can remain on the thread. To minimise any potential bleeding of excess dyestuff it is important to wash the products in THE HOTTEST TEMPERATURE possible, in accordance with the specifications of the fabrics, and use a large amount of water. Please make sure that you also follow the fabric washing instructions where appropriate. As a precaution, you can also use decolorating sheets that you can find in any supermarket.
